## Reviews

Quite simply perfect! A fantastic book with a strong message, illustrated beautifully with the cutest story! A must for every decent bookshelf and school. *Kir Stee*

I help out at the local school and will be recommending that we get some copies in for the pupils, as it's a great tool for introducing the subject of bullying in a light-hearted way. The illustrations are fabulous - colourful and vibrant. I have no hesitation in recommending this book.

Catchy rhymes and lovable animals ... brilliant! *Mustafa Raniwalla*

A lovely little book with a very important message. It should be in every home and every school to help spread the message that bullying people is not cool. *Genna Foden.*
